

Idyllic Interactive / AI Prompt Guide: Plan Your Dream Vacation

Overview

Turn your dream vacation into a perfectly planned reality with AI.

Discover how to use AI to design the perfect trip — from destination inspiration to budget breakdowns. Tools like ChatGPT and Gemini can help you create personalized itineraries, manage budgets, and visualize your travel plans effortlessly.

Your Vacation Planning Prompts

Use these ready-to-go prompts to get personalized itineraries in seconds.

- Plan a 5-day trip to Portugal for two adults in May. Include local dining, cultural experiences, and one beach day.
- Create a detailed itinerary for a wellness retreat in Sedona, Arizona — focus on relaxation, spa experiences, and hikes.
- Give me a family-friendly trip plan to Costa Rica with a \$5,000 budget including flights, hotels, and activities.
- Generate a packing checklist based on the weather in Greece in June and include travel gadgets I shouldn't forget.
- Suggest Instagram-worthy cafes and restaurants in Paris that locals love but tourists rarely visit.

Recommended AI Travel Stack

Need	Tool	Use Case
Planning & Prompts	ChatGPT, Google Gemini	Generate itineraries, check visa rules
Maps & Routing	Wanderlog, Roadtrippers	Create day-by-day routes
Bookings	Hopper, Skyscanner	AI-driven flight & hotel price tracking
Organization	Notion, TripIt	Centralize itinerary and reservations
Visual Planning	Pinterest, Ideogram	Build a visual moodboard of your trip
